Organized by Innerframe • Crafting Vision.

Theme

Our vision is to build a community that fosters hands-on learning and creative exploration through photography and filmmaking. The Frame Hunt is designed to give people the opportunity to discover photography and short filmmaking techniques. It's a chance to learn, to share, and most importantly, to grow as visual storytellers. Our goal is to empower participants with knowledge that will improve their skills.

MOBILE CATEGORY

The Unnoticed

Capture the essence of the theme, asking photographers to find beauty in the overlooked details—small objects, textures, or hidden corners of daily life. Transform the mundane into something magical.

DSLR CATEGORY

The Rhythm of Daily Life

Focus on the art of capturing natural, real-life moments from everyday routines, movement, and emotions that tell genuine stories about life's flow. Neither posed nor staged, just pure documentary photography that showcases patterns and silent emotional narratives.

THE FRAME HUNT 2025
